ACADEMIC EXPERIENCE

Research Assistant *2021-2022*

Description: I worked as Research Assistant for professor Melanie Morten on projects relating to transmigration, with a specific focus on Northern Triangle (El Salvador, Guatemala and Honduras) citizens migrating to the United States.

Research Assistant *2019-2020*

Description: I worked as Research Assistant for professors Gautam Rao, Frank Schilbach and Heather Schofield in the paper "The Economic Consequences of Increasing Sleep Among the Urban Poor". I conducted econometric and data analysis with large datasets.

PROFESSIONAL EXPERIENCE

Uber Applied Sciences Ph.D. Summer Internship *2025*

Description: At Uber, I spent 12 weeks investigating the role of spillovers in matching markets and demand modeling, combining large scale data from experiments to enhance algorithmic pricing. I produced two final reports focusing on distinct parts of the company's demand estimation process.
